

FEE LIST MILIEUKEUR NON-FOOD AND BAROMETERS

The fees listed below refer to the contributions which must be paid to SMK. These fees **do not include the costs which the certification bodies charge to certificate holders for audits and certification**. For an indication of these costs, you can request an offer from the certification body/bodies.

The fees consist of a one-time registration fee for new businesses receiving certification and sales related annual fee. The registration fee will be charged to the certificate holders by the certification body. The annual turnover is requested by the certification body, after which SMK invoices the annual fee.
